DESCRIPTION

Delivered as of summer 2023, Stradivarius is a Sanlorenzo SX112 with an incredibly high specification.

Sanlorenzo's 34.16m SX112 model maximises the connection with the sea and is designed to make the most of the on-water lifestyle. Standout features include the incredible beach club, which occupies the expansive stern and has fold-out platforms on both sides. Forward of the beach club, an enclosed yet luminous space houses a gym, dayhead, and a sea-level sauna with incredible views. The avant-garde nature of this concept achieved the ultimate recognition in 2021 with a win at the coveted World Superyacht Awards.

Stradivarius offers spacious accommodation for up to ten guests. The master is located on the main deck forward and offers fantastic panoramic views. Four guest cabins, comprising three VIPs and one twin cabin convertible into a lounge, are located on the lower deck, where there are three additional cabins for five crew.

Stradivarius' Italian pedigree is evident throughout. The attention to detail and use of high-quality materials provide a truly luxurious finish.

On deck, Stradivarius features an intimate exterior lounge complemented by a stylish bar counter to aft on the sundeck, and the main deck offers an al fresco dining area to aft of the saloon.

Stradivarius boasts impressive performance capabilities. The fast displacement hull allows for smooth and efficient cruising even in rough seas. Four Volvo IPS 1350 engines propel her to a top speed of 22 knots, while she cruises comfortably at 18 to 20 knots. Efficient stabilisation systems and lithium batteries, allowing up to eight hours at anchor without the need for generators, assuring top comfort.

Stradivarius is the perfect combination of style, luxury, and performance, making it an ideal choice for discerning buyers who value both form and function. Delivered in summer 2023 and very lightly used, Stradivarius represents an incredible opportunity for a buyer looking to enjoy a brand new yacht without the wait. Commercially compliant, she offers enormous scope of possibility.
